## Projects

Magnam dolores commodi suscipit. Necessitatibus eius consequatur ex aliquid fuga eum quidem. Sit sint consectetur velit. Quisquam quos quisquam cupiditate. Et nemo qui impedit suscipit alias ea. Quia fugiat sit in iste officiis commodi quidem hic quas.

### JavaScript - Project

The project aims to create a JavaScript-based table with sortable entries and a search feature focused on the first name field. Additionally, it includes functionality to dynamically change row colors based on specific criteria.

### ASP.NET

Assignment 2 of the ASP.NET course is completed, expanding the watch management web application with new properties, search functionality, and dropdown filtering. The project, hosted on GitHub, follows naming conventions and includes implementation details. Contact for further inquiries.

### ASP.NET - Application

This ASP.NET Core MVC application, utilizing .NET 5 and Razor Pages, facilitates bulk book ordering with discounts, powered by Dependency Injection and Entity Framework Core. Future plans include social media authentication and UX enhancements for comprehensive online book procurement.
